Importance of Survey Data Sharing

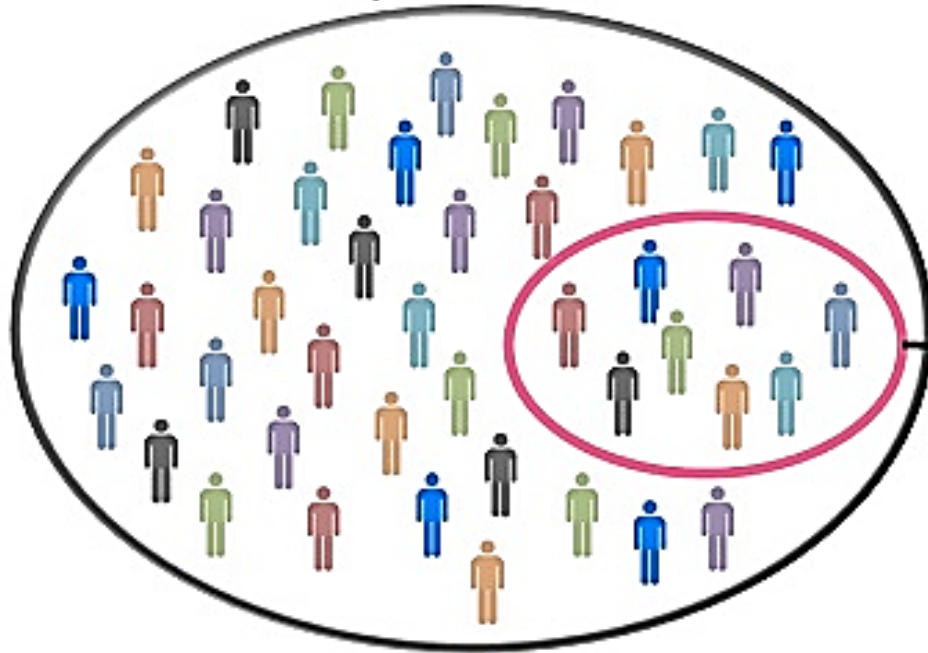

Survey (調查)

A survey is an investigation about the characteristics of a given population by means of collecting data from a sample of that population and estimating their characteristics through the systematic use of statistical methodology.

Broader Concept for Survey

The term survey covers any activity that collects or acquires statistical data. Included are **censuses, sample surveys, the collection of data from administrative records and derived statistical activities.**

Statistics Canada, "Statistics Canada Quality Guidelines", 3rd edition, October 1998, p.7

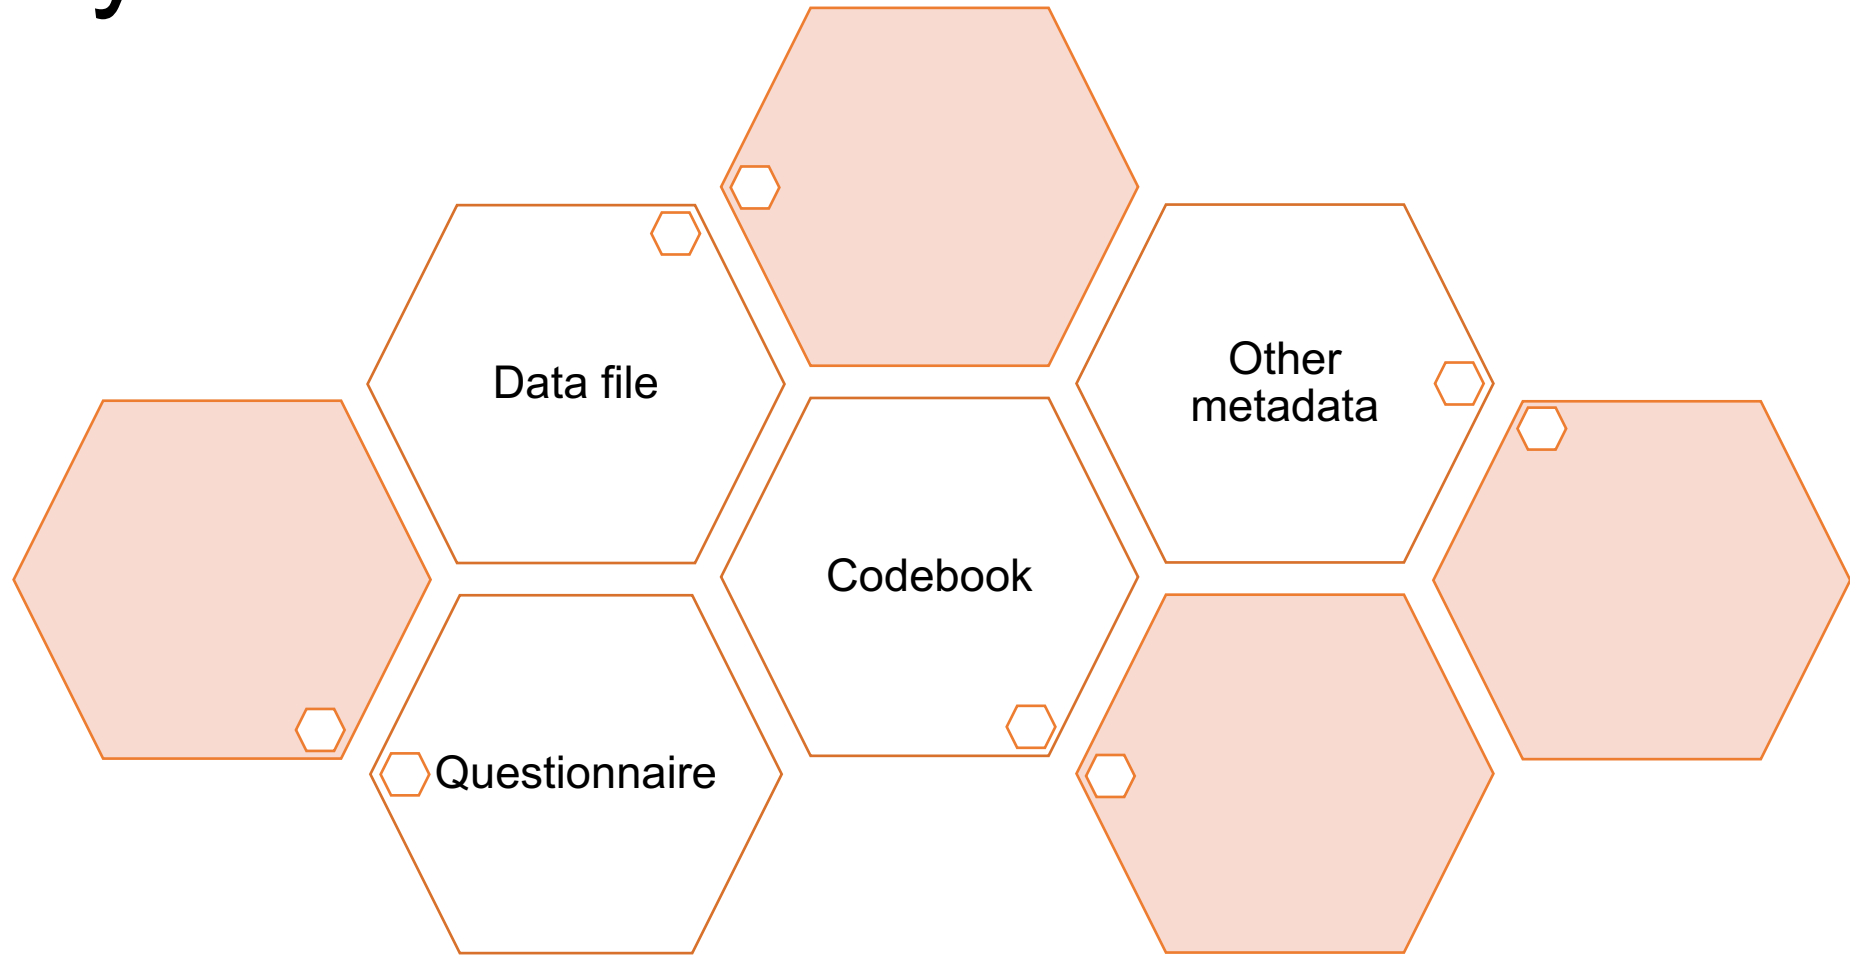

Modes of Survey

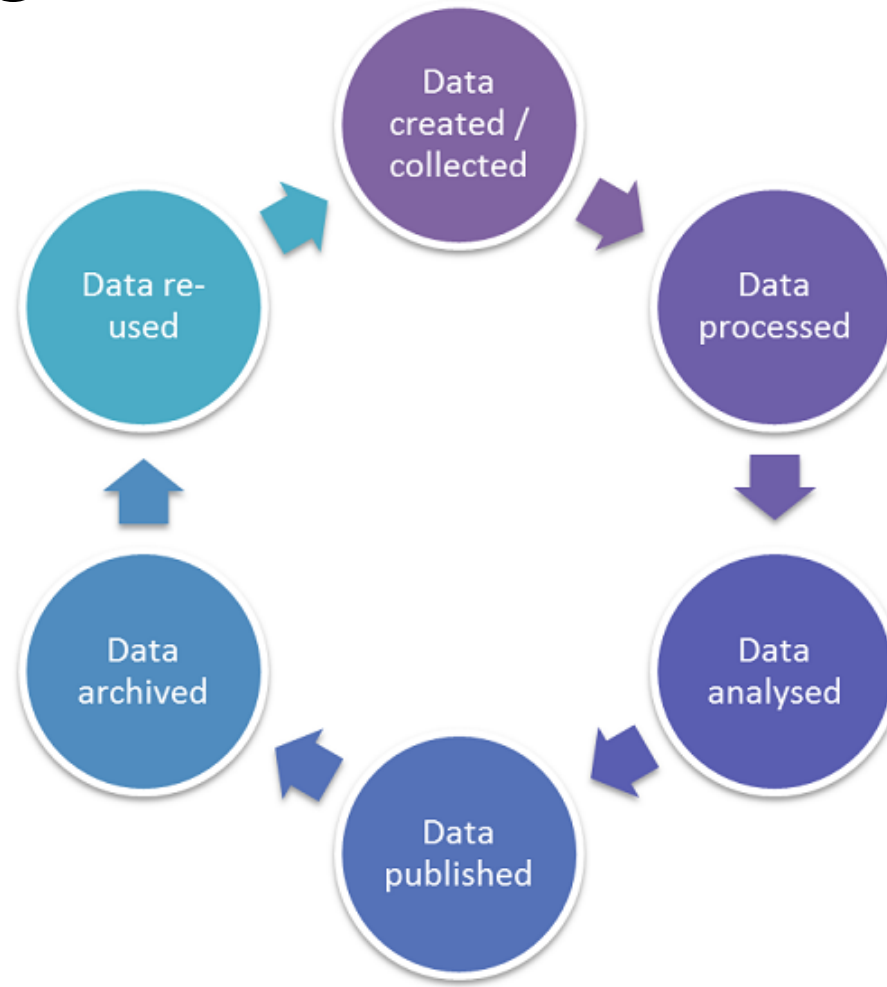

- Face-to-face survey
- Telephone survey
- Mail survey
- Online survey
- Mobile survey
- Other self-administered surveys

Survey Data

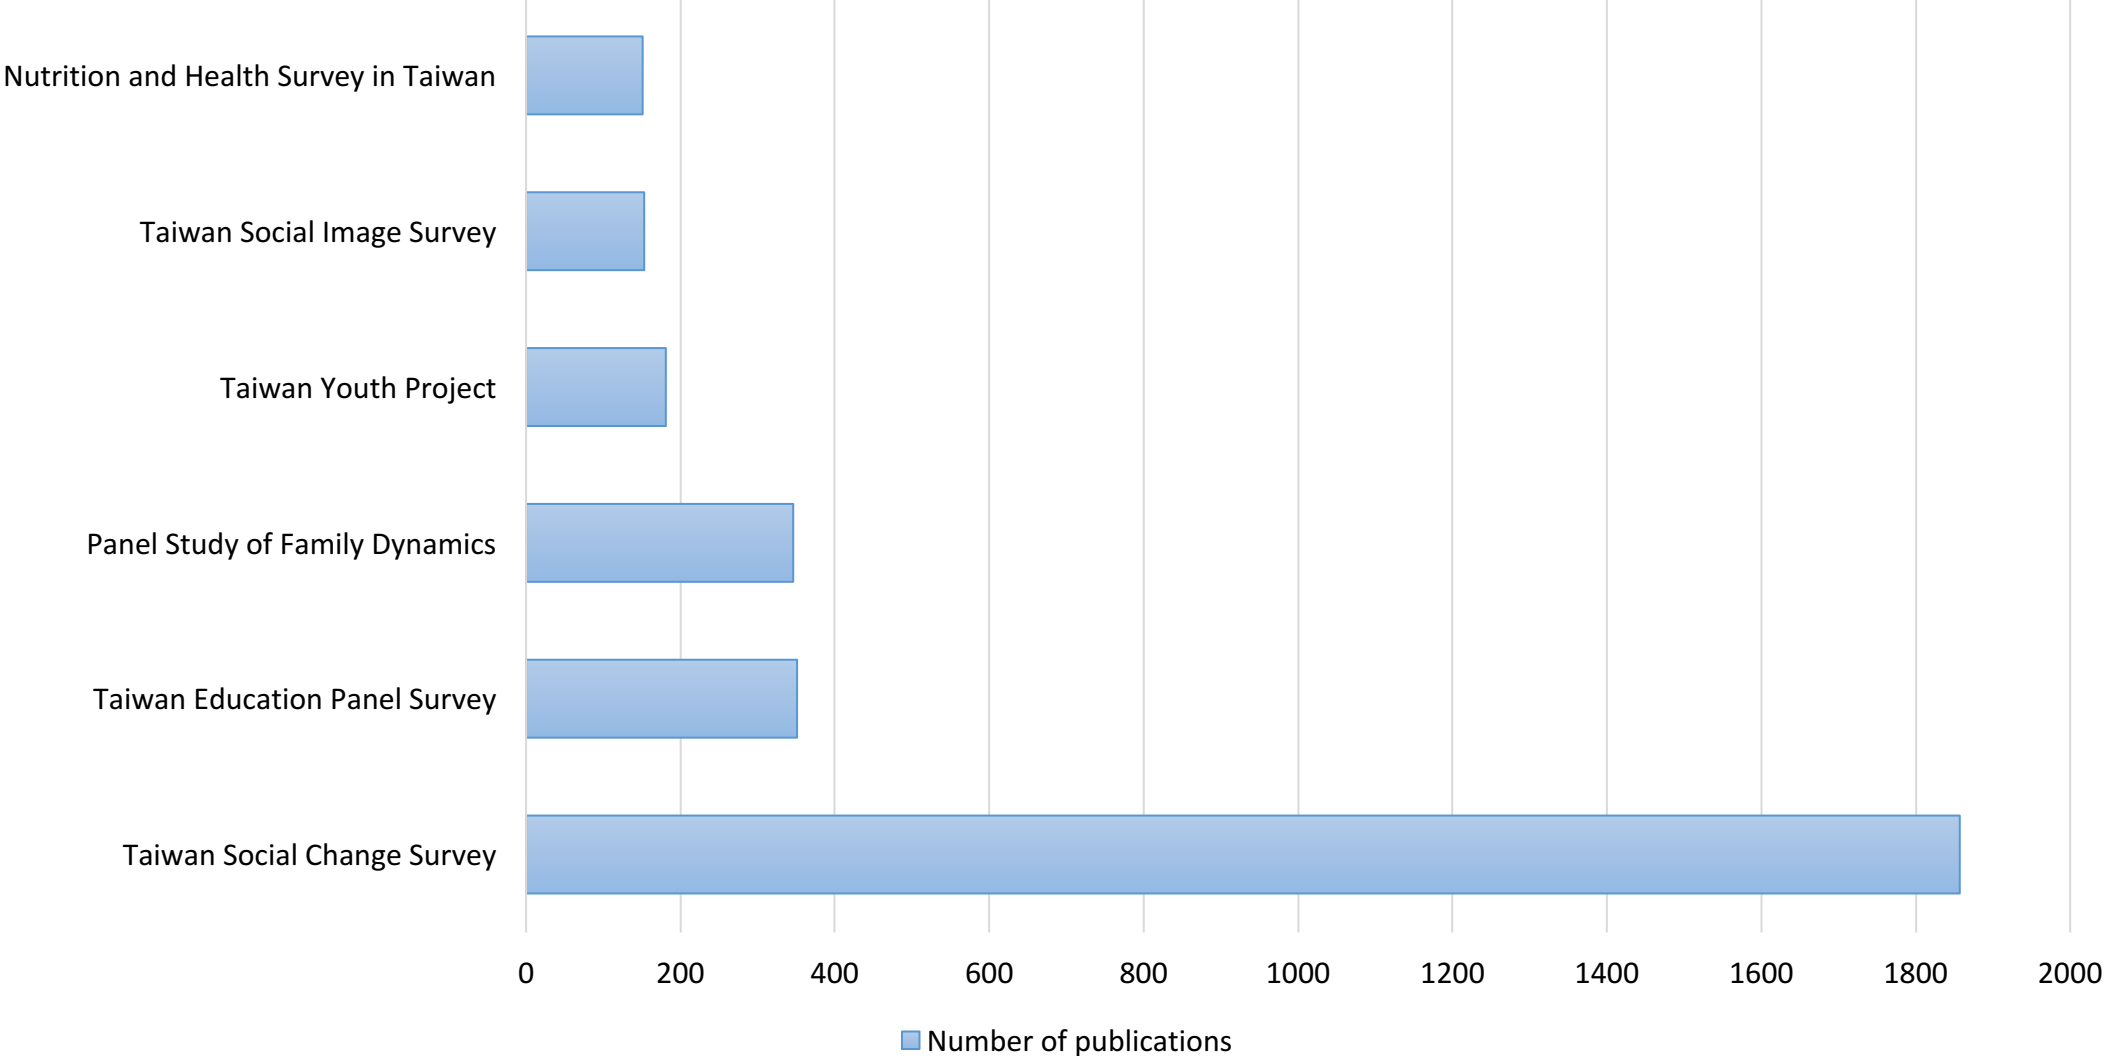

Data lifecycle

Valuable for research community, especially panel surveys and repeated cross-sectional surveys

Survey Research Data Archive (SRDA)

- Established in 1994 by the Center for Survey Research (CSR), RCHSS, Academia Sinica

https://srda.sinica.edu.tw/news/index_en

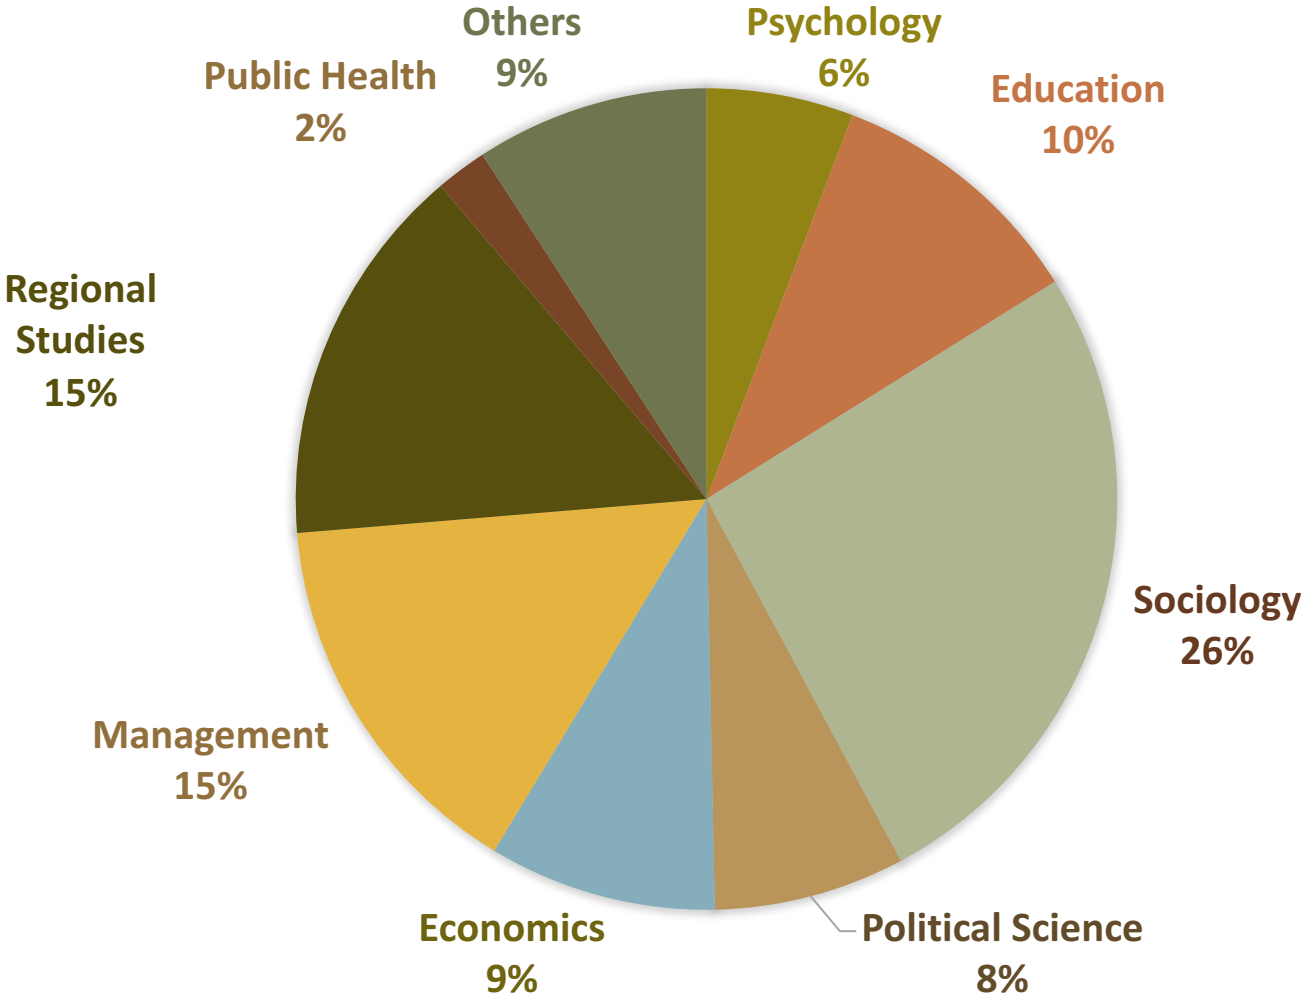

(new version of website shall be online soon)

- Acquire, curate and provide access to the largest collection of survey data in Taiwan

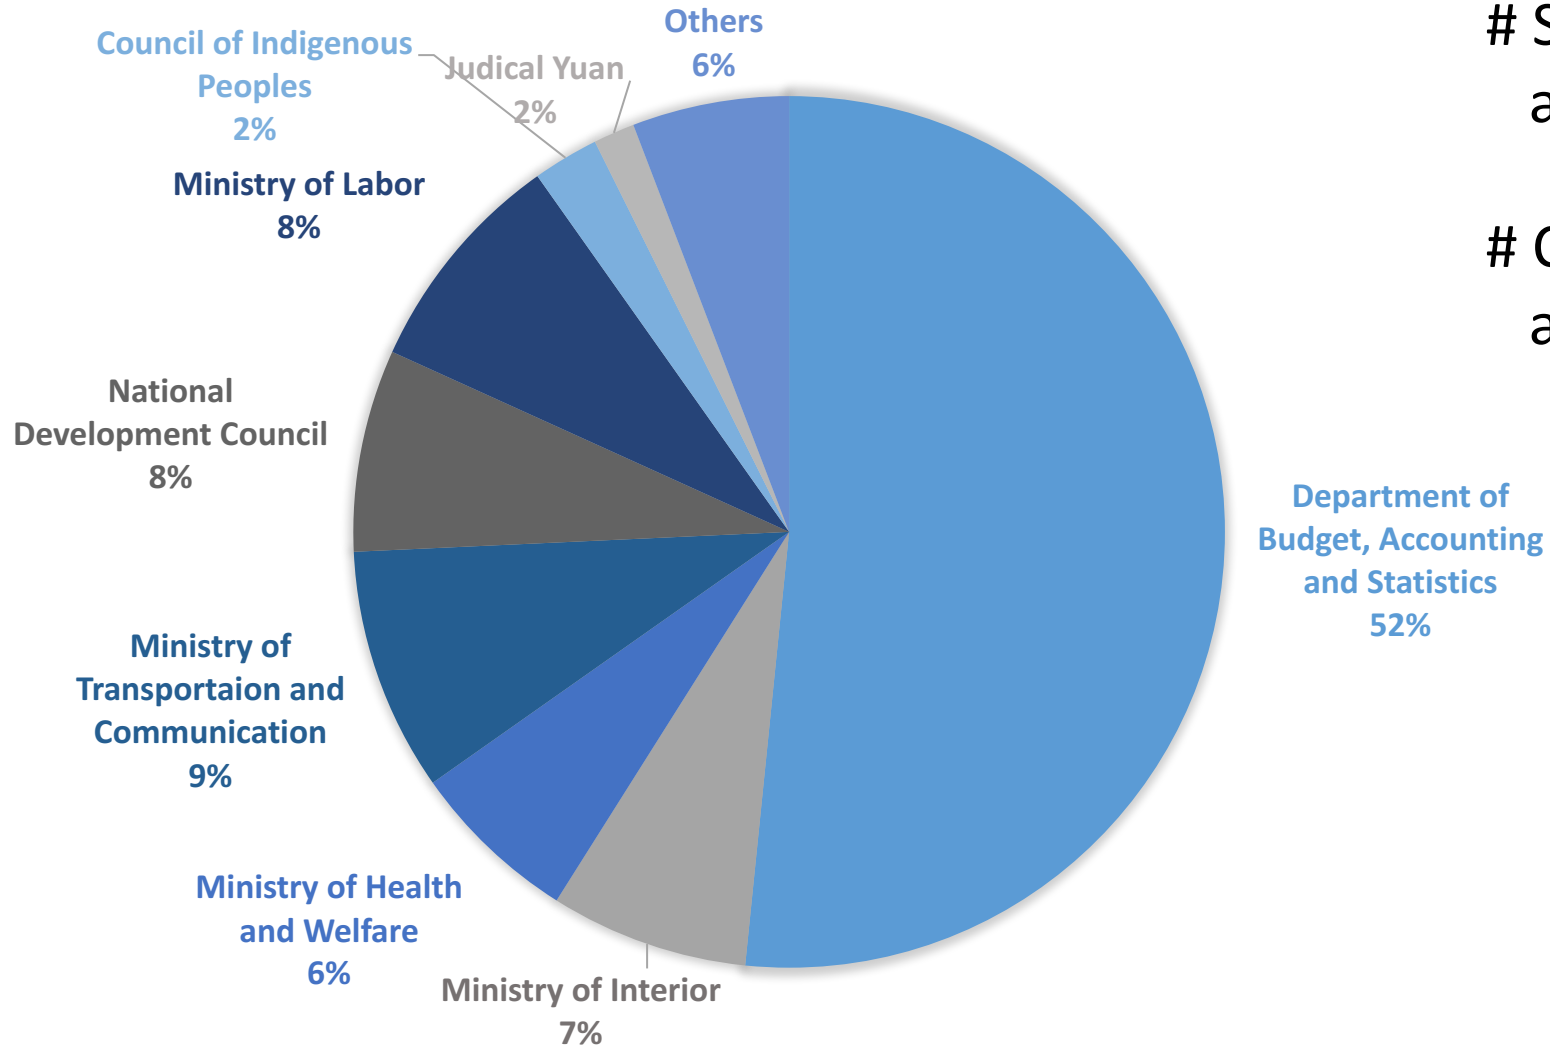

Academic Survey Data: By Field

Sample survey
acquired: 1,789

Government Survey Data: By Agency

Sample survey
acquired: 716

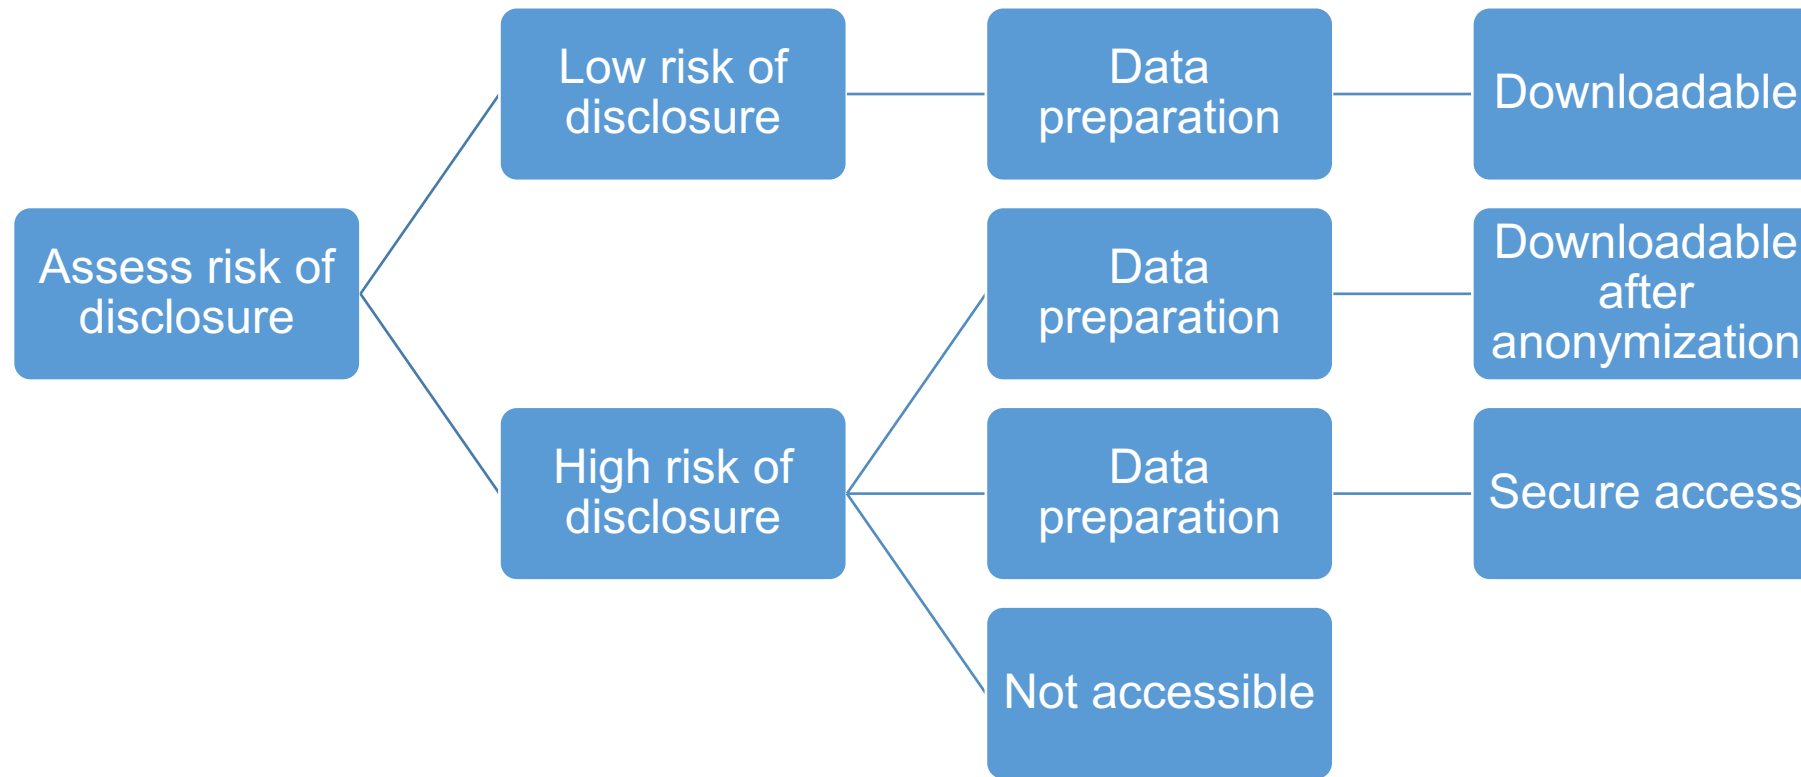

Census
acquired: 46

Sources of Data

- Survey projects funded by Ministry of Science and Technology
- Surveys conducted by our center (CSR)
- Surveys deposited by researchers or academic organizations
- Surveys conducted by government organizations
- Data generated from existing curated data
 - Combined Taiwan Social Change Survey Data
 - Matched Manpower Utilization Survey Data

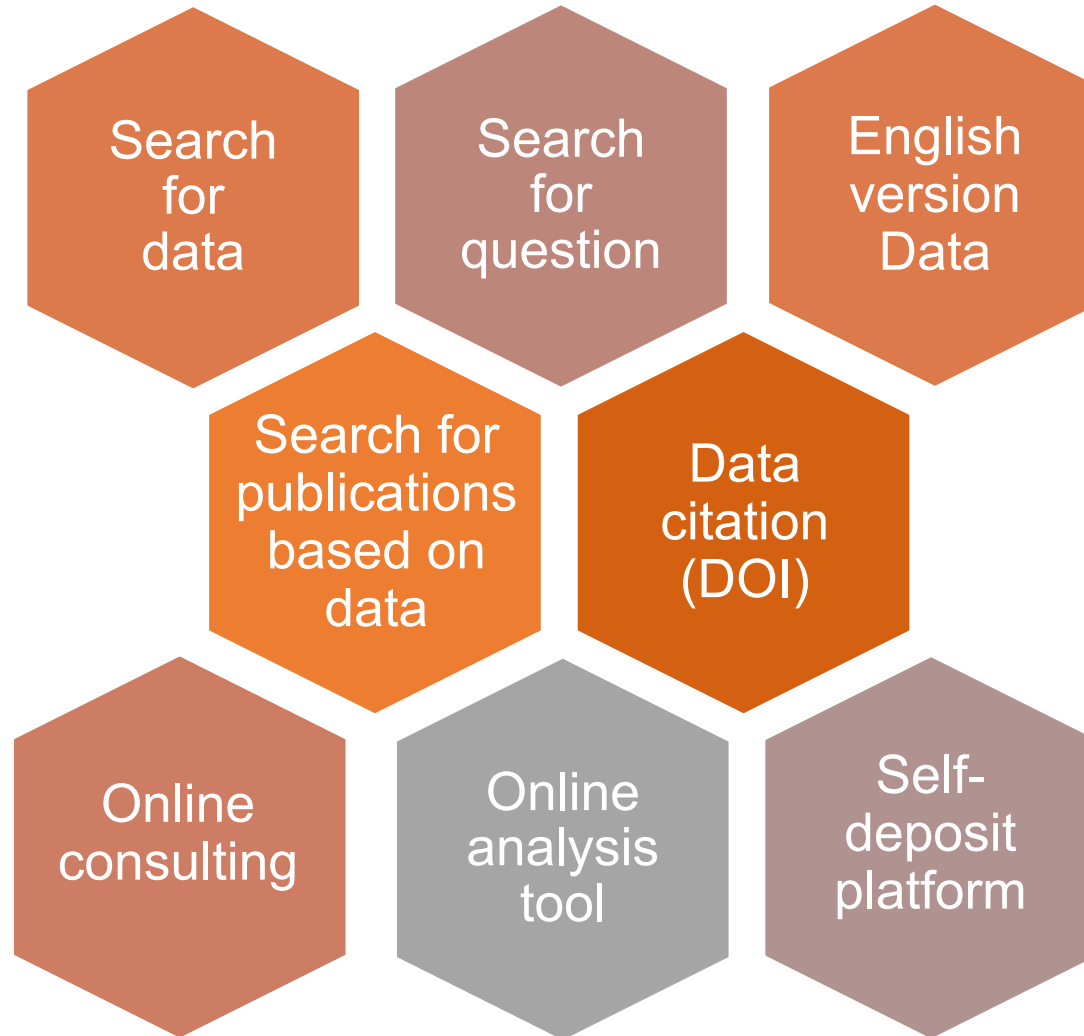

For each acquired data,

Membership and data access are **free of charge**

Data users

Incentives to Sharing Survey Data: Government

- May induce more researchers devoted to relevant policy studies
- In line with open data policy
- Possible credits for data sharing
-

However, often rejected by govt organizations

- Confidentiality concerns

如廠商調查資料（統計法、個資法）

- Data ownership issues

如委外計畫單位 / 主持人保有資料所有權，並拒絕提供原始資料檔

- Data no longer exist

如資料已銷毀（機關檔案保存年限及銷毀辦法）、政府組織改造、人事更動

-

All suggestions are welcome!
